Dental Excellence Awards 2012 semifinal candidates

November 30, 2011 -- Below is a list of semifinal candidates for the third annual DrBicuspid Dental Excellence Awards, DrBicuspid.com's campaign to recognize the best and brightest in dentistry.

Following hundreds of nominations from our members, we have pared down the list of semifinalists to 102 candidates in 12 categories.

Most Influential Dental Researcher

Robin Carden, Glidewell Laboratories
Rella Christensen, CR Foundation
Leslie Fang, DOCS Education
John Flucke, DDS
Vince Kokich Jr., Kokich Orthodontics
Gilles Lavigne, University of Montreal
John Powers, University of Texas
Thomas E. Van Dyke, The Forsyth Institute

Most Effective Dentist Educator

Michael A. Blau, Boston University
Jonathan Bregman, Bregman Consulting
Larry Emmott, Emmott on Technology
Leslie Fang, DOCS Education
Anthony Feck, DOCS Education
Howard Glazer, Glazer Consulting
Lou Graham, VELscope
John Kois, Kois Center
Steven R. Olmos, TMJ and Sleep Therapy Research
Willis Pumphrey, ClearCorrect
Rhonda Savage, Miles Global
Frank Spear, Spear Education
Ryan Swain, Six Month Smiles

Most Effective Dental Hygienist Educator

Nancy Andrews
Linda Boyd, Forsyth School of Dental Hygiene
Wendy Briggs, Hygiene Diamonds and Brilliance Inner Circle
Andy Codding, AndyFutureRDH.com
E. Lynn Goetsch, Madison Area Technical College
Jo-Anne Jones, VELscope
Michelle Klenk, Bridgemont Community and Technical College
Susan Kloosterboer, Madison Area Technical College
Judy Lopez, New Mexico Department of Health
Betsy Reynolds, Dental Hygiene Seminars
Rachel Wall, Inspired Hygiene
Lynda Young, University of Minnesota

Most Effective Dental Assistant Educator

Brittany Ashenfelter, Kaplan College
April Burus, DOCS Education
Aamna Nayyar, Santa Fe Community College
Shannon Pace-Brinker, Dawson Academy
Lorraine Reppucci, Shawsheen Valley Tech High School

Best Practice Management Consultant

Steve Anderson, Total Patient Service Institute
Chris Bowman, Dental Insiders Alliance

GL 202
(page 1 of 2)

Connie Corbin, Dental Solutions
 Jameson Management
 Sally McKenzie, McKenzie Management
 John Meis
 Linda Miles, Linda Miles & Associates
 Amy Morgan, Pride Institute
 Bonnie Pugh, Banta Consulting
 Kerry Straine, Straine Dental Consulting
 Sunrise Dental Solutions
 Jason White, J. White and Associates

Best New Material

Beautiful Flow Plus, Shofu Dental
 BruxZir, Glidewell Laboratories
 Optibond XTR, Kerr
 Scotchbond Universal Adhesive, 3M ESPE
 SonicFill, Kerr

Best New Instrument/Device

2pro Total Access Disposable Prophyl Angle, Premier Dental
 3D Click Implant Guide, Idondivi
 Midwest RDH Freedom Cordless Handpiece, Dentsply International
 Onset Mixing Pen, Onpharma
 Safe Sedate Dental Nasal Mask, Safe Sedate
 Simplicity Hygiene Package, DentalEZ
 SL3 diode laser, Discus Dental

Best New Diagnostic/Imaging Device

Claris i4D Intraoral Scanner, Sota Imaging
 CS 9300, Carestream
 GXDP-700, Gendex
 iCAT Precise, Imaging Sciences
 ProMax 3D ProFace, Planmeca
 Trio Intraoral Scanner, 3Shape
 Tru-Align, Interactive Diagnostic Imaging
 VELscope Vx (new version), LED Dental

Best New Software/Service

Cerec 4.0, Sirona Dental Systems
 Curve, Curve Dental
 EagleSoft 16.0, Patterson Dental
 i-CAT Precise with TxStudio, Imaging Sciences
 Patient Activator (updated), 1-800-DENTIST
 Sesame 24/7, Sesame Communications
 TMnDx, TMnDx Software Solutions
 YAPI, Practical Dental Solutions

Best New Consumer Product

Orabloc articaine, Pierrel Research
 PerioPatch, MIS Implants
 PerioShield, Sunstar Americas
 Sonicare AirFloss, Philips
 Sparkle V 5%, Crosstex International
 Xylshield gum/mints/mouthwash, Ultradent

Most Popular Clinical Procedure

Cone-beam CT
 Dental implants
 Postextraction socket grafting
 Resin cone technique
 Sedation dentistry
 Six Month Smiles

Most Controversial Topic

Amalgam placement
 Bleaching by nondentists
 Botox injections from dentists
 Dental insurance (required PPO participation)
 Dental therapists/midlevel providers
 Electronic health record (EHR) mandate
 Expanded use of flowable composites
 Human papillomavirus (HPV) influence on oral cancer
 Occlusion philosophy
 Overlap between airways, temporomandibular disorders (TMD), and orthodontics

EDUCATION

University of Michigan Law School, J.D., 1990, cum laude, Order of the Coif (graduated in top 10% of class)

Evangel College (Springfield Mo), B.A., 1983, magna cum laude, History, Philosophy, Religion; Outstanding Philosophy Graduate; Baccalaureate Speaker, 1983

PROFESSIONAL EXPERIENCE

Franklyn IP Consulting, San Francisco, Ca, 2000-present

I have served as a consultant and/or expert witness in numerous IP cases, on behalf of several individuals and corporations, including, among others:

Representative Clients:

BUGATTI
RAYTHEON (defense contractor)
FORAY TECHNOLOGIES
FLOWIL, INTERNATIONAL (Sylvania lighting mark)
HERBALIFE
ALLERGEN (BOTOX)
MAUI PINEAPPLE
CONVERSE
BELVADERE VODKA
MOET HENNESEY
MICROSOFT
SONIA DAKAR COSMETICS
KING OF THAI NOODLES
LSI INDUSTRIES
PIZZA MAN

GoGo SPORTS
LEVI STRAUSS
NIKE
NISSAN
VOLKSWAGEN USA
ION MEDIA NETWORKS
PURITY COSMETICS
ESTATE OF SIR ARTHUR CONNAN DOYLE (protecting SHERLOCK HOLMES)
ESTATE OF WILLIAM CASTE (producer of Rosemary's Baby)
HARD ROCK CAFÉ
ING FERTILITY
FIRST NIAGRA INSURANCE
CRISTOFF (against TASTERS CHOICE (owned by NESTLE))
ART ATTACKS INC. (against MGA TOYS in BRATZ dolls litigation)
DIOPTICS MEDICAL PRODUCTS
WINDOW WORLD
BAD BOY INC
SILVERS (against Google)
DUFF (against True Religion Jeans)
SUNDBERG
ISABELA'S KITCHEN
BIG ISLAND CANDIES
BLUE SHIELD OF CALIFORNIA
IGB ENERGY GROUP
HOOD RIVER DISTILLERIES
THE ROLL GROUP/Paramount Citrus (CUTIES brand oranges)
GERAWAN FARMS (PRIMA brand fruit)

Nature of Work:

I have written expert reports, been deposed, drafted briefs, designed surveys, filed trademark applications, drafted license agreements, drafted settlement agreements, prepared counsel for oral argument and offered counsel on litigation strategy in trademark, trade secret, copyright and right of publicity cases.

Law Firm Experience

Mayer Brown, Litigation Attorney, Chicago, IL, 1991-1996

United States District Court for the Eastern District of Michigan
Law Clerk to the Honorable John Feikens, 1990 -1991

PRESENTATIONS AND CONFERENCES

The McCarthy Institute Goes to New York City. Planned, organized and spoke at conference to be hosted by Time Warner and Co-Sponsored by Microsoft at Time Warner in New York, February 9, 2012 (covering gTLDs, DMCA, SOPA, PIPA, etc.)

Speaker, Organizer, Moderator, Sponsor, The McCarthy Institute Goes to Redmond: Trademark Law and its Challenges in 2011, Redmond, Washington, Co-Hosted with Microsoft's Trademark Department at Microsoft; panels on dilution; keyword advertising; Chinese trademark law; ICANN's planned roll-out of new gTLDs; keynote address by J. Thomas McCarthy; Horacio Gutierrez (Head of IP-Global, Microsoft; and Judge Kong, Chief Judge, Chinese Supreme Court for IP). I presented my current empirical research on keyword advertising, trademarks, and consumer perceptions of the on-line advertising environment; February 2011

Hosted Horacio Gutierrez (Head of IP-Global; Microsoft) in a discussion on IP in The Cloud, USF Law School, October 2010.

Keywords, Trademarks and Consumer Perceptions: What do Consumers Really Want When They Use Trademark as Keyword Search Terms? USF School of Law Presentation with McCarthy Institute Academic Affiliates, Professors David Hyman (U of Illinois School of Law) and Ben Edelman, Harvard Business School, November 2010.

The Right of Publicity in Film – co-presenter with top in-house IP attorneys at PIXAR and LUCAS FILM at ABA meeting in San Francisco, August 2010

The Effect on Trademark Owners of ICANN's planned roll-out of new top-level generic domain names (gTLDs), sponsored by the Center for Domain Name Abuse (CADA) meeting, San Francisco, June 2, 2010

Trademark Year in Review 2010, Los Angeles Intellectual Property Lawyer's Meeting, Las Vegas, Nevada, May 2010

Trademark Year in Review 2010, San Francisco Intellectual Property Lawyer's Meeting, Napa, California, May 2010

Trademark Year in Review, Cal. Bar Assoc. IP Section Annual Meeting, San Diego, California, November 14, 2009

The Brand as Property: Trademark Law and its Challenges in the New Era, November 4, 2009, organizer, moderated and speaker; international trademark law symposium co-sponsored by McCarthy Institute, Microsoft, WIPO and Unitalen (a prominent Chinese IP law firm).

Trademark Use, Wonder Doctrine or Wrong Turn? Vail Colorado IP Lawyers Association Retreat, January 2009

INTA 2009 May Meeting, Seattle, Panelist on Trademark and Internet Blogging

Speaker, Moderator and Organizer of Symposium on Derivative Works and Fair Use in Copyright Law, scheduled for November 1, 2008, McCarthy Institute for IP and Tech Law, USF School of Law

Guest Lecturer on International Trademark and Copyright Law, St. Charles University, Prague, July 2008

Speaker, California Bar Association Meeting, Intellectual Property Section, November, 2008

Speaker, International Association of Trademark Lawyers, Meeting in Aspen Colorado, January 2009

Trademark Year in Review, California Intellectual Property Lawyer's Association, Santa Barbara, May 2008

Network Neutrality – What is It?, Symposium planner and moderator, University of San Francisco School of Law, January 2008

Trademark Year in Review, San Francisco Intellectual Property Lawyers Association, Napa, California, May 2007

Trademark Year in Review, Silicon Valley Intellectual Property Lawyers Association, Palo Alto, November 2006

Trademark Trends, California Intellectual Property Lawyers Conference, Santa Barbara, November 2006

The Google Library Project: Fair Use or Misappropriation, USF Law School, October 2006

International IP: Who Should be Responsible for Top-Level Domain Name Governance, Speaker and Panel Moderator, Bay Area High Tech Conference, Stanford Law School, April 2005

Trademark and Copyright Update 2005, Andrews IP Conference, San Francisco, CA, October 2005

The Anti-Free-Rider Impulse in Intellectual Property Law, Katz-Kiley Distinguished IP Lecturer, University of Houston Law School, November 2004

Trends in Trademark Law, Northern and Southern California Associations of Intellectual Property Attorneys, Palm Springs, June 2005

Trademark Year in Review 2005, Cooley, Gotlieb, San Francisco, June 2005

The Right of Publicity and First Amendment; panelist with Judge Alex Kozinski; Northern California Chapter of the Copyright Society of America, May 2005

Trademark Update: 2004 Year in Review, San Francisco Intellectual Property Annual Meeting, Lake Tahoe, California, June 2004

Toward a New Understanding of Dilution and the Anti-Free Rider Impulse, Silicon Valley Intellectual Property Lawyer's Association, October 2003

Exploring the Anti-Free-Rider Impulse in American Dilution Law, Salmon P. Chase College of Law Lecture Series, September 2003

Symposium on Comparative Analysis of Business Method and Software Patenting in the European Union and the United States, moderator and organizer; co-sponsored by the McCarthy IP Institute and Kilburn & Strode, a London IP firm, June 2003

Symposium on Biotech Patent Issues, moderator and organizer; co-sponsored by the McCarthy IP Institute and Morrison & Forester, March 2003

Victoria's Secret and Dastar: Remaking Trademark Law, Los Angeles Association of IP Attorneys, June 2003

The Right of Publicity and the First Amendment, 2002 IP Symposium, Golden Gate University, October 2002

First Amendment Limits on the Right of Publicity, ABA Intellectual Property Section Annual Meeting in Philadelphia, June 2002

The Boundaries of Language Commodification On-Line, Northern Kentucky Law Review Symposium on Trademark and Cyberlaw Issues, February 2001

Symposium on Intellectual Property Law, sponsored by The Northern Kentucky Law Review, moderator and coordinator, February 2000

Symposium on the Third Restatement of Torts, Northern Kentucky Law Review, moderator, February 1999

Symposium on the Regulation of Media Violence & the First Amendment, moderator; sponsored by The Northern Kentucky Law Review, November 1999

Trends in Mass Tort Litigation, Panel on Mass Tort Litigation Joint Meeting of
ABA Products Liability and Litigation Sections, Dallas, Texas, April 1999

Keith,
I just wanted to let you know, we have officially done away with R-brux(see our site), and we are now promoting only the Bruxzir. I have changed the work codes in my billing software so the docs will only see this product when they request any full-contour, R-brux, Bruxzir cases. As I mentioned, I will make the changes to the lab script and fee guides as soon as we re-order. Is this all ok with you?

Keith,

I am just following up with you again on my decision to become a Bruxzir certified laboratory. I would like to get permission, from you on my action plan as follows below in terms of eliminating the "R-brux":

- 1.) Immediate change in our lab software (for billing on invoices) from R-brux to Bruxzir for product description.
- 2.) Change this month, of any verbage of R-brux to Bruxzir
- 3.) All RX prescriptions and brochures printed going forward to be change to Bruxzir (once it is time to re-order)
- 4.) I will change my youtube video to read "How to adjust Bruxzir". How do I handle the R-brux adjustment kits we made -up from Axis? I will not re-order anymore, but I will need your help on how to handle this.

I believe this covers everything, you can confirm all with Robin on my decision. I appreciate you working with me on this, and I think these changes should be able to make everyone happy.

Best,

Hello Daxton:

I let Robin Bartolo know you are interested to know more about the milling blanks for BRUXZir® Crowns and Bridges.

We have the utmost respect for all of the challenges that you face in fulfilling the expectations of your clients on a daily basis and wish you success. It is understood that you would like to use up your supply of prescription forms (can we agree, e.g., over the next 90-days?) before the next printing and that they will be discontinued at that time along with perhaps other items on a similar timetable.

Sincerely,
Keith

Keith,

Just letting you know, I have heard nothing from your contact on becoming a Bruxzir lab. I think this is going to be my decision, but I want to see the contract or obligation first. Also, if I did do this, can I just send a memo to all docs this is what we are doing and can I keep from having to reprint my brochures, lab scripts, etc. and just make the changes on everything going forward? Basically, what I am asking, is will you work with me if I commit to Bruxzir certification on minimizing my loss on printing?

Sent: Friday, April 29, 2011 1:42 PM
To: Daxton Grubb
Subject: RE: BRUXZIR - R-dent.doc

Hello Daxton:

That would present a lot of tricky issues. The expense of administering a system of authorizing and protecting what conceivably could be a plethora of similar marks would be very difficult.

Additionally, the complexity of the licensing arrangement that would be required probably is not an expense that neither party will wish to undertake. The reason for the complexity of such a license is because the owner of the mark must be careful to avoid the consequences of entering into what might be construed as '**naked licensing**.'

For example, the use of BRUXZir Milling Blocks is the necessary quality control standard to use the mark. However, in the event BRUXZir Milling Blocks are not used, the licensor would have to be responsible on some level for maintaining quality standards of licensees who did not use BRUXZir Milling Blocks but who still intended to use the mark (otherwise, the owner of the mark would even run the risk of forfeiting its own rights in the mark).

A situation similar to what you mentioned is where the owner of the mark might fabricate BRUXZir Milling Blocks (using the company's proprietary patent-pending process) to be sold under the buyer's mark. The private labeling of BRUXZir Milling Blocks might be something that the company would consider under certain circumstances—e.g., pursuant to a distribution agreement—however, that would have to involve a many thousands of blocks to make such an arrangement worthwhile to both parties.

Thanks,
Keith

Subject: RE: BRUXZIR - R-dent.doc

Daxton: No not yet—as you know, Glidewell Labs is concerned about the possibility of confusion of source of goods in the dental marketplace with regard to R-Dent's R-BRUX. In our opinion there is risk of likelihood of confusion with respect to our BRUXZIR mark, registered in the United States since January 2010. Glidewell Labs has invested several millions of dollars in developing and marketing the *BRUXZir* brand of full zirconia restorations. It was the first ever all-ceramic and all-zirconia restorative brand to include the indication for patients with the parafunctional condition of bruxism. Legal precedents require that Glidewell Laboratories actively protect the trademarked brand or risk losing its unique value. The network of partner authorized dental laboratories who agreed to invest in providing the authentic *BRUXZir* dental restorations also expect Glidewell Labs to ensure trademark law enforcement. I hope everything will be Ok with all of the weather issues that you have had to deal with. I will be in the office all of next week. Sincerely, Keith

Attn: President & CEO

**Re: Infringement of Glidewell Laboratories'
BruxZir® Trademarks, Misbranding, Violation
of Federal Acts and State Statutes and Unfair
Business Practices**

The serious matter of your infringement of my client's proprietary property rights in connection with the unauthorized use Glidewell Laboratories' registered trademarks on your work order has come to our attention.

Glidewell Laboratories has for years used the mark BRUXZIR both nationally and internationally to identify its dental laboratory goods and services in the US and its CE certified BruxZir® zirconia milling blanks in Europe. The company enjoys considerable good will associated with its use of the aforesaid mark.

GL 241

(Page 68 of 99)

The promotion of dental laboratory services by your lab of a R-Brux is using a similar mark where there is an appreciable likelihood of confusion and a palming off goods by an unauthorized substitution of one brand for the brand ordered, which in this instance is a deliberate misappropriation of intellectual capital for commercial purposes that is actionable unfair competition under California law (California Business and Professions Code §17200)

Under federal law, Trademark infringement is presumptively an unfair exploitation of the monopoly privilege that belongs to the owner of the mark. Infringement is a 'tarnishment' of the owner's mark and results in "brand confusion" and the likelihood of 'initial interest' confusion as to the actual identity of the source of the goods and services.

For the above reasons, we must insist that you immediately cease use of the infringing marks in your promotions and elsewhere. Should you not terminate use of the mark, Glidewell Laboratories reserves its rights to take legal action to stop you from using the mark by seeking an injunction, monetary relief, and attorney fees.

Please contact me, or have your attorney contact me, within ten days of receipt of this communication if you are unsure about the appropriate steps that you must take to avoid liability for your refusal to discontinue your use of the infringing marks. Additionally, if you wish to be on the list of BruxZir® authorized dental laboratories, call Glidewell Direct.

Your prompt attention is appreciated.

Sincerely,

Re: Infringement of Glidewell Laboratories' BruxZir® Trademarks, Misbranding, Violation of Federal Acts and State Statutes and Unfair Business Practices

The serious matter of your infringement of my client's proprietary property rights in connection with the unauthorized use Glidewell Laboratories' registered trademarks on your work order has come to our attention.

Glidewell Laboratories has for years used the mark BRUXZIR both nationally and internationally to identify its dental laboratory goods and services in the US and its CE certified BruxZir® zirconia milling blanks in Europe. The company enjoys considerable good will associated with its use of the aforesaid mark.

The promotion of dental laboratory services by your lab of Brux crowns is using a similar mark where there is an appreciable likelihood of confusion and a palming off goods by an unauthorized substitution of one brand for the brand ordered, which in this instance is a deliberate misappropriation of intellectual capital for commercial purposes that is actionable unfair competition under California law (California Business and Professions Code §17200)

Under federal law, Trademark infringement is presumptively an unfair exploitation of the monopoly privilege that belongs to the owner of the mark. Infringement is a 'tarnishment' of the owner's mark and results in "brand confusion" and the likelihood of 'initial interest' confusion as to the actual identity of the source of the goods and services.

For the above reasons, we must insist that you immediately cease use of the infringing marks in your promotions and elsewhere. Should you not terminate use of the mark, Glidewell Laboratories reserves its rights to take legal action to stop you from using the mark by seeking an injunction, monetary relief, and attorney fees.

Please contact me, or have your attorney contact me, within ten days of receipt of this communication if you are unsure about the appropriate steps that you must take to avoid liability for your refusal to discontinue your use of the infringing marks. Additionally, if you wish to be on the list of BruxZir® authorized dental laboratories, call Glidewell Direct.

Your prompt attention is appreciated.

Cc: Robin Bartolo
Subject: RE: EMAIL COPY - NOTICE OF TRADEMARK INFRINGEMENT

Hello Rudy:

Thank you for your call and explanation today concerning the use of the BRUXZIR mark to describe dental laboratory services in the nature of full contour crown and bridge dental restorations using zirconia.

BruxZir® / BRUXER: sounds the same doesn't it? And, that is what gives rise to the matter of trademark infringement. A trademark infringement is based on "confusing similarity" of marks and services, and marks can be confusingly similar even if not *identical*.

The *confusingly similar* type of infringement is different from, for example, third parties' use of reserved marks like "Super Bowl" and "Olympics" without authorization, although the principles are the same. The basic principles also apply slogans and nicknames.

For example, a radio station with the call sign KISS is entitled to claim an infringement of their mark by another station's use of KIIS. Although the call signs are different—and even if as in this instance meeting with FCC approval—a federal court would find that that one infringed the other as a matter of trademark law since they were pronounced the same way. (*Citicasters Licenses, Inc. v. Cumulus Media, Inc.*, 189 F. Supp. 2d 1372, 1377)

Prior to the promotion of the BruxZir® mark the use of all-ceramic crowns—even for patients with parafunctional problems—was counterintuitive. It is true that words like bruxism and clencher are descriptive. Even so, even descriptive words—such as when applied to professional dental products—can be appropriated to one party's exclusive use: descriptive terms become exclusive trademarks when they acquire secondary meaning. Glidewell Laboratories has exclusively and extensively used the mark BRUXZIR in the dental industry. Unquestionably the mark has acquired secondary meaning to dentists and GL has the exclusive right to use the mark in the dental field, especially where Glidewell is catering to the same channels of trade.

As we discussed, Glidewell has used the mark BRUXZIR in connection with full contour zirconia crowns. As you know, Glidewell Laboratories owns the federal registration number for the mark. Like the Glidewell product, your product is also sold only to dentists and dental professionals.

Since both products are closely related and move in the identical marketing channels (to dentists) and the marks are virtually identical, there is little doubt that your firm's marketing of a crown under the mark *BRUXER All-Zirconia Crown* would constitute trademark infringement.

If you would like to fulfill prescriptions for BruxZir® crowns and bridges give us a call. I included Robin Bartolo's contact information on this email; he can answer any questions you may have about it.

Sincerely,
Keith

August 9, 2011

Hello Shaun,

Thank you for taking my call this afternoon. I sincerely hope we can work together and save both companies from extensive legal expenses. I believe we can both agree the money would be better spent promoting our businesses.

As you discuss with your team how best to proceed, here are a couple blanks specifically designed to work with your Digital Dental Mill. Also included is an A3 bottle of Bruxzir coloring liquid and the Bruxzir instruction manual. You will see a difference in the value and translucency of the material.

If you cancel your trademark application for KDZ Bruxer and use Bruxzir materials and the BruxZir trademark instead, we will not pursue legal action. Additionally, Keating Dental Arts would be added to the list of Authorized Labs with full participation in the national ads and Rx booklet mailers.

Sincerely yours,

A handwritten signature in black ink that reads 'Robin'.

Why do Labs choose **BruxZir® Solid Zirconia?**

Robin Carden

Vice President of Research & Development
Glidewell Laboratories

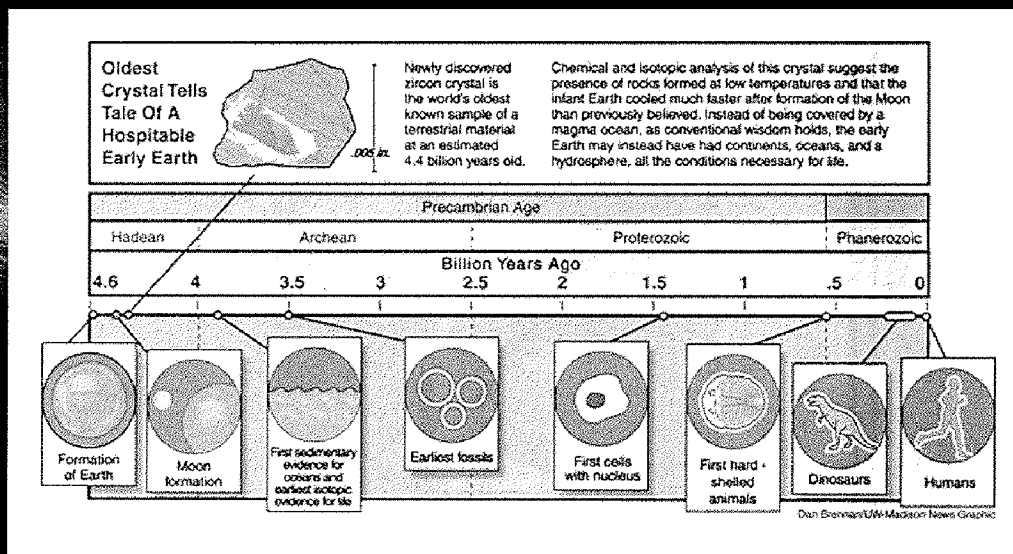

1

BruxZir - Monolithic Zirconia

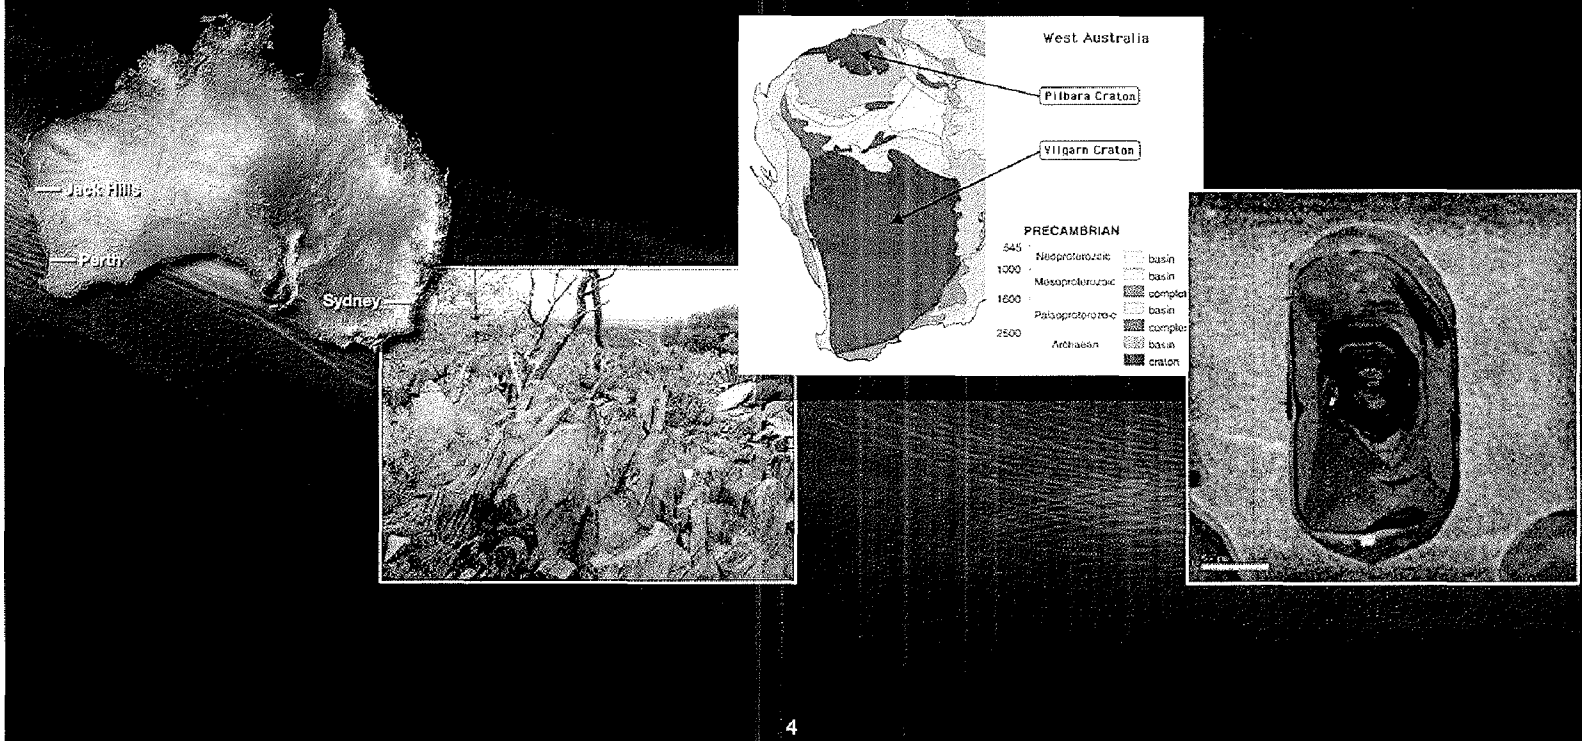

- BruxZir History – How is a monolithic ZrO_2 Crown Possible?
- Processing Zirconia: What Makes BruxZir Unique?

2

World's oldest known terrestrial material @ 4.4 billion years old. A Zircon Crystal.

It All Starts in Western Australia

BruxZir: From Beach to Mouth

Zircon Raw Material

Powder Processing

Sintering Final Shape

History of Zirconia Products

Knives for
Cutting
Plastics

Hip Joint Implants

Fiber Optic
Ferrules

Wear Parts for Chemical Industry

Why Use Zirconia Ceramic for a Restoration ?

- Flexural strength of zirconia restorations range from 900 to 1400 MPa.
- Conventional and pressed ceramics range from 70 to 120 MPa.
- Metals and alloys cannot compete with the esthetics of Zirconia.
- Advanced ceramics are very stable.
- Highly biocompatible.

7

The Greatest Property

- Stress energies from propagating cracks cause the transition from the metastable tetragonal to the stable monoclinic Zirconia. The energy used by this transformation is sufficient to slow or stop propagation of the cracks.

Fracture Toughness in PSZ: “Self-healing” Event

9

BruxZir "More Brawn Than Beauty"

10

What is the Difference Between BruxZir and Prismatic CZ?

	BruxZir	Prismatic CZ
Product Type	Full-Contour Restoration	Framework, 1st Released ZrO₂
Consolidation Process	Proprietary Colloidal Process	Isopressed Blocks
Flexural Strength	1328 MPa avg.	1105 MPa avg.
Translucency	Highest	Medium

What are the advantages of BruxZir Zirconia over other materials?

- Flexural Strength (up to 1510 Mpa)
- Fracture Toughness (K1C value)
- Translucency / Opaque color
- Coefficient Of Thermal Expansion (CTE)
- Ability to produce a monolithic restoration “BruxZir”

12

Data based on more than 4,000,000 restorative units.

22

What is Glidewell Lab Doing?

Restorative Products

PFM vs. BruxZir Product Mix

CAD/CAM vs. Non CAD/CAM

BruxZir is now 15% of our anterior restorations

24

Processes that can effect the BruxZir Quality: “Furnace Quality”

- Examine your furnaces
- Perform a retro-fit on them.
- Take the plated metal bracket out.
- Add SS hold screws
- Backing can be added.
- Increase your yields!

26

Use correct furnace boats and amount of ZrO₂ balls.

A thin "one ball thick" layer of Zirconia balls is recommended for the final sintering step. Too many balls cause a problem with proper shrinkage in the margins.

Replace discolored balls with new ones.

27

Furnace Controls

- Make sure door is closed properly.
- Do not crack the door before 200c.
- Make sure the thermocouple is not pushed back inside the furnace.
- Make sure the correct sintering program is running.

28

Processing after bisque machining

Make sure all the Zirconia Powder is brushed, air blown or ultrasonically cleaned off the crown.

Do not use sharp edge diamond wheels to finish the crowns or bridges.
